PROFESSIONAL SUMMARY

AI and Data Science student and current Artificial Intelligence & Machine Learning intern, building a career as an AI / Generative AI Engineer. Hands-on with Python, data analytics, and prompt engineering, with practical exposure to cloud architecture and GenAI-powered analytics through industry simulations. Seeking an AI/GenAI engineering internship to build and ship LLM-based solutions and grow into a full-time role.

EXPERIENCE

Artificial Intelligence & Machine Learning Intern | SURE ProEd | Aug 2026 – Present

- Working on AI and machine learning tasks as part of an industry internship, applying Python and core ML concepts to practical problems.
- Designing and refining prompts for large language models to produce accurate, well-structured outputs.
- Preparing, cleaning, and analyzing data to support model training and evaluation.
- Documenting work and collaborating with mentors to improve solutions through feedback.

PROJECT

Brightness-Based Password Safeguard System for ATM

- Designed a security concept in which password visibility adapts to the surrounding light intensity, reducing the risk of shoulder surfing at ATMs.
- Applied problem-solving and logic design to turn a real-world security risk into a working, user-focused solution.

VIRTUAL INTERNSHIPS & INDUSTRY SIMULATIONS (Forage, 2026)

- **Tata – GenAI Powered Data Analytics:** Used generative AI and prompt design to analyze data and derive business insights.
- **Deloitte – Data Analytics:** Analyzed business data, built summaries in Excel, and presented findings clearly.
- **AWS APAC – Solutions Architecture:** Worked through a cloud solution design scenario, learning how AWS services fit client requirements.

EDUCATION

B.Tech – Artificial Intelligence and Data Science | RVS College of Engineering and Technology | 2025 – 2028

Diploma – Computer Science | RVS Polytechnic College | 2022 – 2025

TECHNICAL SKILLS

- **AI / GenAI:** Prompt Engineering, AI Prompt Design, Large Language Models (LLMs), Generative AI fundamentals
- **Programming:** Python (fundamentals)
- **Data:** Data Analytics, Data Cleaning, MS Excel
- **Cloud:** AWS fundamentals (solutions architecture simulation)
- **Tools:** MS Word, MS PowerPoint

SOFT SKILLS

Communication, Problem Solving, Quick Learning, Teamwork

LANGUAGES

Tamil (Native) | English (Intermediate)
